

FOR IMMEDIATE RELEASE

June 13, 2025

Crowley to Showcase Industry-Leading Digitization Solutions at ALA Conference 2025

Frederick, Md. - The Crowley Company (Crowley), a world leader in capture solutions, will exhibit its premier digitization products and services at the American Library Association (ALA) Annual Conference in Philadelphia, Pennsylvania beginning June 27. Crowley will be joined by longtime partner Zeutschel GmbH to present a range of solutions designed to support library professionals in preservation and digital access.

"We're excited to connect with library professionals from around the country and demonstrate how our solutions can streamline and enhance digitization efforts," said Patrick Crowley, president of The Crowley Company. "Our goal is to meet libraries where they are and help them preserve critical resources for generations to come."

Experience the Latest Technology Firsthand at Booth 2236

The Crowley Company will showcase the following digitization solutions at the show:

- Zeutschel OS C Overhead and Large Format Scanner
Engineered for large-format digitization projects, the OS C delivers FADGI, high quality results with efficiency. Ideal for oversized books and fragile archival materials.
- Crowley UScan+ Advanced Universal Film Scanner
The UScan+ Advanced is a versatile tool for libraries and research institutions, offering high-resolution imaging, advanced electronics, and software upgrades for a wide variety of film formats.
- Crowley MACH Mini Film Portable Microfilm Scanner
Compact and portable, the MACH Mini Film is designed for space conscious users who still need top-tier microfilm scanning capabilities. Compatible with multiple film types, it offers production-level results in a small footprint.

Proven Digitization Services Backed by Libraries & Academic Institutions

In addition to showcasing its hardware solutions, [Crowley's Digitization Services](#) team will be on-site at ALA to explore potential project partnerships. Backed by decades of experience and certified expertise, the team provides industry-leading scanning for documents, books, microfilm, maps, and more. Crowley specializes in FADGI-compliant imaging and scalable solutions, combining advanced technology with a commitment to accuracy, efficiency, and preservation excellence.

Upcoming Appearances & Exhibitions

You can find The Crowley Company at the ALA Conference until June 30. Following ALA, Crowley will continue its [2025 trade show schedule](#) at the following events:

- July 15-17: [National Association of Government Archives and Records Administrators \(NAGARA\)](#), Oklahoma City, Oklahoma
