

Restoring ILS Accuracy with RFID on the “Tech Talk” Stage at the ALA 2025 Conference

PHILADELPHIA, June 16, 2025 — Whether you’re a public, school, academic, or special library—ALL libraries know the battle for ILS accuracy. Join us at ALA 2025 (on the Tech Talk Stage or at Exhibitor Booth #947) to see how RFID helps you remove exception items immediately from the stacks, accomplish lightning-fast inventory, and more.

Restoring ILS Accuracy with RFID

Presenting: Gretchan Freeman, MLS | Principal Librarian/Strategist, Tech Logic
Steve Mackey | Library Sales Consultant, TLC
Dr. Melissa Frost | System Librarian, Rochester City School District

Where & When: ALA Tech Talk Stage (Booth #248) | Saturday, June 28 @ 11:30 AM Eastern

***“Do our shelves
match our catalog?”***

It’s a constant question. It’s a daily battle.
Are we doomed forever to repetitive searches and tedious lists?
There must be a better way!
